## EDUCATION

### Bachelors of Computer Applications

Chitakara University

2023-2025

CGPA: 9.09

### 12th Grade

2021-22

Percentage: 84%

## AWARDS & CERTIFICATIONS

- CODATHON 2K24 Certificate
- MERN stack Course Certificate
- CODETHON Certificate

## SKILLS

- C
- C++
- JAVA
- HTML/CSS
- BOOTSTRAP
- JAVA SCRIPT
- REACT JS
- GIT/GITHUB
- SQL
- NODE JS

## PROFILE

BCA graduate skilled in the MERN stack, eager to put classroom knowledge into practice. Proficient in JavaScript, HTML/CSS, React.js, SQL, and Node.js, with a strong commitment to creating innovative web solutions.

## PERSONAL PROJECTS

### QUIZ GAME

June 2023

DCreated a quiz game using JavaScript, HTML, and CSS. The game featured a set of questions and answers stored in an object. Users could answer questions, receive scores, and use options to reset the quiz, navigate between questions, and avoid reanswering completed questions.

### SIMON SAYS GAME

October 2023

Developed a memory-enhancement game using JavaScript to assist individuals with memory difficulties. The game features four colored lights and includes ten levels. Players must replicate a sequence of flashing colored lights in the correct order. As they progress, they are challenged to remember longer sequences that include both current and previous lights. Originally a physical game, I adapted it for online use to enhance accessibility.
